Spring Commencement

MAY 19-20, 2013 / UNIVERSITY OF MARYLAND

The May 2013 class roster comprises degree candidates from the graduate and undergraduate programs at the University of Maryland, College Park. As final action cannot always be taken for candidates by the time this program is printed, the list of candidates here is tentative. The university reserves the right to withdraw or add names. Diplomas (for other than doctoral degrees) will be mailed by the Office of the Registrar.

Congratulations

CONGRATULATIONS on your graduation from the university! This is a milestone that should bring great pride to you, your family and friends.

I am certain that your time at the University of Maryland has been filled with new ideas, friendships and opportunities. As president of this great university, I want to express my hope that you have explored new areas and discovered new talents. The world is waiting for you to share them.

As you move beyond the campus, I hope you will remember the intellectual curiosity and drive that inspired your time here. Graduating does not mean that learning has come to an end. It means that you are now equipped to take charge of your own learning. This is a privilege and a profound responsibility. Society's advancement will depend upon your knowledge and your leadership.

As you leave us, you should take with you the pride we all feel in your accomplishments as scholars, artists, athletes and leaders. You have enriched the university's life and have helped it to climb to a new level of distinction. We welcome you into the alumni family, a truly special group.

I hope that you stay connected to the university and take full advantage of being an alum. Stay involved with us and help new generations of students develop their futures. You can do this by returning to campus often, starting with Maryland Day 2014, on April 26.

You have my very best wishes for all your future plans. Make your mark. But wherever your path takes you, please remember that you will always be a TERP. I hope you will always stay in touch. Go Terps!

Sincerely,

A handwritten signature in black ink, which appears to read "Wallace D. Loh". The signature is fluid and stylized, with a long horizontal stroke at the end.

Wallace D. Loh, *President*

ON BEHALF of the University of Maryland Alumni Association, I am delighted to congratulate you on attaining this academic milestone. When you reach for your diploma, consider it your torch—the light to lead you on the road to excellence; one well traveled by Maryland alumni for more than 150 years. Hold it high, with the pride and tradition it deserves. You are one of us now and we expect your light will lead to great accomplishments and success.

It is time for you to look forward to your career and the development of your life. Finding the right path is, understandably, your first priority. I ask, however, that you always remember from where you came and who you are. Cherish the time you spent here and do not forget the others still to come.

Through career services, networking opportunities, volunteer opportunities, special events, tailgate parties and more, the Alumni Association will always be here for you. We hope you stay connected to and engaged with your alma mater. To help you do so, we are pleased to offer you a complimentary one-year membership to the Alumni Association as our graduation present.

As an extra bonus, we've put together another special gift for you. To get it, simply visit alumni.umd.edu/2013Surprise. We know you're going to really enjoy this reflection on your time at Maryland.

It's my hope that you will shine your light back on your alma mater by sharing your newfound expertise and ideas. In turn, Maryland will continue to educate the country's brightest students, pursue cutting-edge research, explore the arts and cheer on our athletes.

Best of luck to you! And thank you for displaying your Maryland spirit as you take your place in our alumni family. No matter where life takes you, professionally or personally, you are "Always a Terp!"

Sincerely,

A handwritten signature in black ink that reads "Timmy F. Ruppertsberger". The signature is fluid and cursive, with a large, stylized "T" and "R".

Timmy F. Ruppertsberger '77, Esq.
President, Maryland Alumni Association Board of Governors

Peacock Blue
Public Health: Salmon
Science: Golden Yellow
Social Work: Citron
Theology and Divinity: Scarlet
Veterinary Sciences: Gray

CUSTOMS OF COMMENCEMENT

Early commencement ceremonies at the University of Maryland were marked with great fanfare and celebration. The faculty gave huge banquets for the graduates the night before the event. The following morning, crowds gathered to watch the young graduates parade. It was a gala social occasion, attracting not only friends and relatives, but also the fashionable elite of the day. At the ceremony, prayers were recited, speeches were made and honorary degrees were awarded to distinguished figures from across the country. Finally, as the audience cheered and threw flowers, the graduates came forward to collect their Latin-inscribed degrees.

ACADEMIC COSTUME

The black caps and gowns worn by the students and faculty in the academic procession have been the traditional costume of scholars since the Middle Ages. The ordinary dress of the scholar, whether student or teacher, was similar to that of a cleric. Caps and gowns were probably worn to keep students warm in unheated buildings. Many medieval scholars were tonsured, like monks, and hoods served to cover their shaved heads until the skullcap later took its place. Even after the Civil War, most students at American universities wore caps and gowns daily while in residence. These varied in design until the American Intercollegiate Commission standardized them in 1894. At that time it was decided that all robes would be black. Colors on the trim of the gown were also standardized to indicate the scholar's academic discipline.

The tassel may also be colored to represent an academic discipline or it may be black. Officially, the tassel is permitted "to lie where it will" on the mortarboard. However, numerous institutions have adopted the practice of having degree candidates wear the tassel on the right front side at the start of the commencement ceremony and then shift them to the left side after degrees are awarded.

SENIOR MARSHALS

Elected through a nomination process, student marshals are senior leaders who play an important role in the graduation ceremony. They assist in organizing the thousands of graduates, leading them smoothly through the commencement procession. Spring 2013 marshals are listed on page 72 of this booklet.

INDIVIDUAL COLLEGE AND SCHOOL CEREMONIES

SUNDAY, MAY 19, 2013

TIME	SCHOOL OR COLLEGE	LOCATION
5 p.m.	African American Studies, Anthropology and Geographical Sciences, Departments of	Memorial Chapel
	Art History, Department of	Kay Theatre, Clarice Smith Performing Arts Center
	Economics, Department of	Cole Student Activities Building
	Jewish Studies, Department of	Atrium, Stamp Student Union
	Languages, Literatures, and Cultures, School of	Grand Ballroom, Stamp Student Union
5:30 p.m.	Computer, Mathematical, and Natural Sciences, College of	Comcast Center
	Criminology and Criminal Justice, Department of	Reckord Armory
	Public Policy, School of	Dekelbourn Concert Hall, Clarice Smith Performing Arts Center

MONDAY, MAY 20, 2013

4:30 p.m.	Business, Robert H. Smith School of	Comcast Center

INDIVIDUAL COLLEGE AND SCHOOL CEREMONY LOCATIONS

Speaker Biographies

VIJAY BAHARANI / STUDENT SPEAKER

Vijay Baharani came to Maryland with a desire to help others. He says he's leaving with a vision of *how* to do that.

The Gaithersburg, Md., native wants to serve the community around him by engineering the technology for cleaner transportation and cleaner energy. He formed this plan after having "all sorts of quarter-life crises" and declaring three different majors.

Baharani initially pursued degrees in business and cell biology before discovering electrical engineering: "The key was just remaining open to things," he says.

This focus led to an internship at Key Technologies, a small technology design firm in Baltimore, where he demonstrated his interest in having an impact on the world.

"It is something that he shows a commitment to in both his words and actions," says Josh Mull, an electrical engineer at the company. "He worked long hours and often learned new skills when he saw he was able to make a difference."

Even before finding his academic and vocational home, Baharani wanted a tangible connection to the community. So, he worked as a fourth-grade math tutor and mentor with America Reads*America Counts. A Banneker-Key scholar, he also was a section

leader for Honors 100, requiring him to come up with lesson plans and assist up to 20 first-year students with the transition to college.

"He is more people-oriented than most engineers tend to be," says Bill Dorland, director of the Honors College. "I would welcome him back again if he weren't graduating. He has a very natural, warm personality."

Baharani also interned with Dining Services "to help move UMD toward sourcing our food sustainably." He and a few peers completed the Real Food Calculator, created by the national Real Food Challenge, which provided an analysis of the percentage of money spent on sustainably sourced food. This figure is now used as a benchmark in the Sustainable Food Action Plan adopted by Dining Services last fall.

He'll focus on finding a job after graduation, so that he can repay his parents for all of their support, financial and otherwise. Immigrants from India, they worked extra jobs to give their three children what they needed.

"Education to them was an empowering tool, the path to a better life," he says. "I want to be able to make my parents retire. They gave me so much."

RAISHAY LIN / UNIVERSITY MEDALIST

Raishay Lin took courses in most of the university's 10 undergraduate colleges, but enjoyed learning outside the classroom too, whether reading the newspaper front to back, following the activity inside a Petri dish or attending off-campus lectures on global issues.

"I find equally essential the conversations with professors during office hours, chats with classmates over coffee and reading that I choose for myself," says the English major and Honors College student.

The North Potomac, Md., native did tell friends that she was going to focus on academics at Maryland. She kept her word, writing one honors thesis on novelist Edith Wharton and feminist theory and, with her Gemstone team, another on detecting spoilage in milk through pH changes and color-changing packaging. For the latter project, Lin took on a leadership role in creating the business and research plans.

"In everything she has produced at our university, Raishay has managed to present a personal voice that is powerfully informed, crisply reasoned, shrewdly constructed; but also witty, charming, humane and often downright playful," says John Auchard, professor in the Department of English.

Her most vivid college experience did happen in a classroom, and Lin says that it

speaks to how she feels about her time at Maryland.

"I was sitting in a class, watching the girl in front of me spin her long hair into a bun and secure the whole thing simply by knotting it onto itself. As I was watching her, the professor told us never to do anything just for money. He said, 'Go because it sets your soul on fire.'

"I have met so many people here like that girl," she says, "who could do something with seemingly nothing, and like that professor, who has inspired me to go to so many places."

She also treasures the time she spent volunteering as a conversation group leader for students in the Counseling Center's ESOL program every semester. "It's very humbling and gratifying. It has been an honor to find that I have something to offer people who are older and wiser than I am," she says. "We always invited them to our house for Thanksgiving."

Now Lin is headed to Harvard Law School, grateful that Maryland encouraged her to have such broad experiences and learn from excellent professors and mentors.

"She is a very well-rounded person who is both dedicated to those around her and a natural leader," says Nam Wang, associate professor of chemical and biomolecular engineering. "Wow, what a pleasure to have had her in my class!"

CAL RIPKEN JR. / COMMENCEMENT SPEAKER

Cal Ripken Jr. made his mark on the field as baseball's Iron Man, and now he's doing so off the field as a businessman, philanthropist and goodwill ambassador.

After amassing more than 3,000 hits and 400 home runs with the Orioles over 21 seasons, Ripken was inducted into the National Baseball Hall of Fame in 2007.

In 1995, Ripken broke Lou Gehrig's major league record of 2,130 consecutive games played, and in 1996 he surpassed the world record, Sachio Kinugasa of Japan's streak of 2,215. Ripken's streak finally reached 2,632 games before he ended it in 1998. Although he began and finished his career at third base, Ripken is best known as a shortstop. He won two Gold Gloves and paved the way for other power-hitting shortstops to follow.

In 2007, he was also named a public diplomacy envoy to the U.S. Department of State, traveling the world using baseball to spread goodwill. Ripken has visited China, Nicaragua and Japan, where he played ball with young victims of the 2011 earthquake and tsunami.

Ripken and his family established the Cal Ripken, Sr. Foundation in 2001 in memory

of his father. The organization uses baseball to help children living in underserved communities across the United States.

He also created the Ripken Experience, youth academies owned and operated by Ripken Baseball, in his hometown of Aberdeen, Md., and in Myrtle Beach, S.C. These complexes host thousands of young ballplayers each year for camps and tournaments.

In addition, Ripken Professional Baseball owns two minor league teams, the Aberdeen IronBirds, a Class A affiliate of the Baltimore Orioles and the Charlotte (Fla.) Stone Crabs, the Class A affiliate of the Tampa Bay Rays.

Ripken is also a best-selling author. His most recent project is a series of baseball-themed children's books published by Disney. Three books have been published with at least three more planned.

He and his brother, Bill, a 12-year major league veteran, host a weekly radio program on Sirius Satellite Radio, and Cal is a member of the TBS broadcast team during Major League Baseball's postseason.

Ripken lives in Maryland with his wife, Kelly, and their children, Rachel and Ryan.

Fearlessly Forward

Nurturing the entrepreneurial spirit in students and faculty. Forging powerful federal partnerships to address world concerns. Creating artistic experiences to enrich the community. Members of the university community do this and more. **Fear the Turtle!**

Hudson Taylor '10 is **pushing to end homophobia in sports** and beyond. As a three-time All-American wrestler, he wore a Human Rights Campaign sticker on his headgear to support his LGBT friends. His advocacy snowballed from there, and now his nonprofit, Athlete Ally, encourages straight athletes to unite to respect all individual athletes.

Associate Professor Andre W. Marshall Ph.D. '96 is answering the burning question of **how to design a smarter sprinkler**. He's using lasers and computer software to test how the speed, size and spray pattern of sprinklers battle blazes under different conditions.

Chelsey Green D.M.A. '14 is **rocking classical music**. The music performance major creates new arrangements and original music for violin in genres from R&B to pop, soul, funk, hip-hop and

more, introducing new audiences to the versatility and voice of her instrument.

Hannalore Gerling-Dunsmore '13 is **harnessing star power**. She's improving simulations in theoretical plasma physics, which could help achieve nuclear fusion, creating an endless supply of energy as well as deepening our understanding of how the universe functions.

Dan Wray, assistant director of facilities at the Stamp Student Union, and his colleagues are **diverting compostable materials from landfills** for environmentally sound reuse. It's just one of the ways they're helping UMD meet its goal of recycling 75 percent of its waste.

Assistant Professor June Ahn is **inspiring future scientists**. He and fellow researchers in the College of Information Studies are working with school librarians to encourage

inner-city students to create superhero identities, write science fiction-inspired stories, and make videos and graphic novels, all incorporating science, technology, engineering and math (STEM).

Associate Professor and architect Amy Gardner is **spreading the message about sustainable architecture** worldwide. She directed the WaterShed team that won the 2011 U.S. Department of Energy's Solar Decathlon with its revolutionary energy-efficient home, and now she's teaching the principles to students in Oman.

Timothy Ghazzawi '11 is **helping children improve their reading skills**—in Spanish and English. He traveled to South America and Africa as a student, learning about development, poverty and global leadership. He then founded Bilingual Backpacks to provide reading materials to Ecuadorian students.

OUR HISTORY & OUR FUTURE

From its pre-Civil War roots as the state's first agricultural college and one of America's original land-grant institutions, the University of Maryland has emerged as a public research university of national stature, highly regarded for its broad base of excellence in teaching and research.

Founded in 1856 by a group of planters, the former Maryland Agricultural College required students to spend an hour a day hoeing or plowing on the college farm and to take courses in ancient and modern languages, natural sciences, English and mathematics. After a disastrous fire on campus in 1912, the state acquired the college and rebuilt it. The legislature in 1988 combined its institutions of higher education to form the University System of Maryland, and the growing College Park campus was named its flagship.

Today, Maryland takes full advantage of the unique resources of the nation's capital, attracting top students and faculty; enriching the economic, social and cultural life of the state; and engaging the global community to address some of the most critical issues of our day. Within the university's 12 schools and colleges, our academic community is addressing today's most pressing scientific and societal challenges, such as climate change, the economy, energy, homeland security and public health.

Our student body of 27,000 undergraduate students and 10,000 graduate students comes to study with a faculty that ranks among the finest in the nation, with three Nobel laureates, five Pulitzer Prize winners and scores of Fulbright scholars.

The quality of our students and the support of our alumni continue to grow. We received more than 26,000 applications for a class of just under 4,000 first-year seats in Fall 2013. Accepted students who complete their academic journey join a rapidly increasing family of alumni who are proud to be called Terps. The University of Maryland Alumni Association has grown to more than 32,000 dues-paying members since its inception in 1989.

As a gateway to the world, the university has established more than 250 educational, research and economic relationships with people and institutions in countries such as China, India, Brazil, Israel and the United Arab Emirates. The Maryland Technology Enterprise Institute, or Mtech; the University of Maryland Small Business Development Network; and the Dingman Center for Entrepreneurship nurture a culture of thriving entrepreneurship at the university. They are leading efforts to educate and assist business startups, create technology ventures and connect Maryland companies with university resources to help them succeed. Through its Office of Technology Commercialization, the university has secured more than 500 U.S. patents, licensed more than 600 technologies and helped to create 69 high-tech startup companies. Among them are award-winning firms that create alternative energy solutions, national security tools and data systems to protect against Internet viruses. Companies served by Mtech have had a \$27.8 billion impact on the state over the past 30 years.

Maryland is part of the prestigious 61-member Association of American Universities and the only public institution in the Maryland-D.C. area with membership in the nation's most distinguished honor society, Phi Beta Kappa.

ALWAYS A TERP

Graduation doesn't mean the end of your connection to Maryland—you're always a Terp. The University of Maryland Alumni Association has clubs from Boston to Beijing to maintain your ties to the university, wherever you may go. Members get access to exclusive tailgates and game watches, wine tastings, golf tournaments and picnics, all with fellow Terps. They take part in career-boosting networking, perform community service and enjoy retail discounts. And all grads are welcome at the Samuel Riggs IV Alumni Center, your alumni home on campus. Visit alumni.umd.edu/youngalumni for more ways to share memories with fellow Terps and make new ones.

THE ALUMNI HALL OF FAME

The Alumni Association's Hall of Fame honors university graduates who have brought honor to their alma mater through distinguished careers in a variety of disciplines. The Hall of Fame induction ceremony takes place once every five years, with the last group of honorees being inducted in June 2010. The following 60 individuals have shown the world what it means to be a Terp.

Carmen Balthrop '71 <i>World-class soprano</i>	George B. Dantzig '36, '76 <i>Honorary Doctorate (awarded posthumously) Father of linear programming</i>	Robert E. Fischell '53, M.S. '96 <i>Honorary Doctorate Medical technology pioneer</i>	Samuel J. LeFrak '40 <i>Urban planning leader</i>	Jane Cahill Pfeiffer '54 <i>First woman chairman of the board at NBC</i>
Charles L. Bennett '78 <i>Prominent astrophysicist</i>	Jon Franklin '70 <i>Pulitzer Prize-winning journalist</i>	Liz Lerman '70 <i>American choreographer</i>	Kathleen Magee M.A. '72 <i>Nurse and philanthropist</i>	Judith A. Resnik '77 <i>Challenger astronaut</i>
Gail Berman-Masters '78 <i>Entertainment powerhouse</i>	Herbert A. Hauptman Ph.D. '55 <i>Nobel laureate (chemistry)</i>	Manning Marable Ph.D. '76 <i>Authority on African- American history</i>	Robert H. Smith '50 <i>Developer of Crystal City</i>	Bernice Resnick Sandler '69 <i>Godmother of Title IX</i>
Adisai Bodharamik Ph.D. '70 <i>Telecommunications trailblazer</i>	Jim Henson '60 <i>Muppets creator</i>	Russell Marker '23 <i>Pioneering chemist</i>	William Woolford Skinner <i>1895 Research chemist</i>	Chun-Shan Shen Ph.D. '61 <i>President of Taiwan's Tsing-Hua University</i>
Lester R. Brown '59, M.S. '76 <i>Honorary Doctorate International environmentalist</i>	Steny H. Hoyer '63 <i>Minority whip, U.S. House of Representatives</i>	Tobin Marks '66 <i>World-renowned chemist</i>	Adele Hagner Stamp M.A. '24 <i>Maryland's first dean of women</i>	Reginald Van Trump Truitt '14 <i>Naturalist and Chesapeake Bay advocate</i>
Waldo Burnside '49 <i>Retail king</i>	Harry R. Hughes '49 <i>Maryland governor</i>	Charles Thomas "Tom" McMillen '74 <i>Gifted scholar, athlete and public servant</i>	Millard E. Tydings '10 <i>U.S. senator</i>	Evelyn Pasteur Valentine M.S. '67, Ed.D. '86 <i>Educator and entrepreneur</i>
Harry Clifton "Curley" Byrd '08 <i>Legendary University of Maryland president</i>	Mylo S. Downey '27, M.S. '40 <i>(awarded posthumously) Global agricultural leader</i>	Carlisle H. Humelsine '37 <i>Preservationist and statesman</i>	Tom Norris '67 <i>Congressional Medal of Honor recipient</i>	Gary Williams '68 <i>Championship-winning coach</i>
Robert F. Chandler Ph.D. '34 <i>A founding father of the Green Revolution</i>	Leonard Elmore '78 <i>All-star basketball player and scholar</i>	Hugh Newell Jacobsen '51, '93 <i>Honorary Doctorate World-renowned architect</i>	Michael Olmert Ph.D. '80 <i>Emmy Award-winning writer</i>	Morgan Wootten '56 <i>Basketball Hall of Fame member</i>
Connie Chung '69 <i>Prominent broadcast journalist</i>	Geary Francis "Swede" Eppley '20, M.S. '26 <i>Administrator, coach and soldier</i>	Jeong H. Kim Ph.D. '91 <i>High-tech communications entrepreneur</i>	Robert M. Parker Jr. '70 <i>The Wine Advocate</i>	
A. James Clark '50 <i>Construction magnate, benefactor</i>	Norman "Boomer" Esiason '84 <i>Football hero, CBS analyst</i>	Albin O. Kuhn '38, M.S. '39, Ph.D. '48 <i>Builder of Maryland's Baltimore campuses</i>		
William P. Cole '10 <i>U.S. congressman</i>	John Faber '26, M.S. '28, Ph.D. '37 <i>Legendary coach and distinguished professor</i>	George J. Laurer '51 <i>Inventor of the Universal Product Code</i>		
Harry Stallings Coleman '35 <i>First female Michigan Supreme Court chief justice</i>	Charles L. Felferman '66 <i>Mathematician, professor, winner of Field's Medal</i>	Wilbur Monroe "Munro" Leaf '27 <i>"Ferdinand the Bull" author</i>		

GOLDEN TERPS

The Maryland Alumni Association created the Emeritus Alumni Society, or Golden Terps, to recognize University of Maryland, College Park alumni who are 50 or more years beyond graduation. A new class is inducted every spring and they are included in the commencement ceremony. The Class of 1963, proudly adorned with their Emeritus Alumni Society medallions, black-trimmed gold robes and black tams, will follow the student marshals in the processional.

Doctoral Degrees

The doctoral degree is the most advanced earned degree conferred by American institutions. There are two distinct types: the practitioner's degree and the research degree. The first type represents advanced training for the practice of various professions, principally doctor of audiology, doctor of medicine, juris doctor, doctor of pharmacy and doctor of veterinary medicine. These degrees do not involve the completion of original research by the student. The University of Maryland, at the professional school in Baltimore, awarded the first two dental degrees on March 9, 1841.

MAY 2013 GRADUATES

DOCTOR OF AUDIOLOGY

This is a practitioner's degree and does not require a dissertation.

Technology Integration Before Student Outcomes: Factors Affecting Teacher Adoption of Technology in India

The University of Maryland conveys the doctor of veterinary medicine to approximately 90 students each year in a program that was instituted in 1980. Graduates receive a diploma containing the seals of both the University of Maryland and its partner institution, Virginia Tech.

The second type is the research doctorate representing prolonged periods of advanced study. A dissertation that usually accompanies the study is intended to contribute substantially to the body of knowledge on the subject. The most important of these, the doctor of philosophy, no longer has an implication of philosophy for its holder, but represents advanced research in any of the major fields of knowledge. The University of Maryland awarded a Ph.D. for the first time in 1920.

Master's Degrees

The master's degree is an academic honor bestowed upon students who have successfully completed work beyond the baccalaureate. A thesis and an oral examination are usually required. In 1920, the University of Maryland awarded its first Master of Arts and Master of Science degrees in fields other than agriculture.

MAY 2013 CANDIDATES

MASTER OF APPLIED ANTHROPOLOGY

Kathrina J. Aben
Ennis Ayla Barbery
Alexander Oscar Carson
Kendall Ann Concini
Nadine Yvette Dangerfield
Sarah A. El-Hattab
Amanda Hunt Pike-McCruden
Eric Jakob Ruesch

Bachelor's Degrees

The bachelor's degree represents the completion of a four-year course of college-level study and is the oldest academic degree awarded by American institutions of higher learning. Maryland Agricultural College, which later became the University of Maryland, College Park, awarded its first Bachelor of Arts and Bachelor of Science degrees in 1862.

MAY 2013 CANDIDATES

AGRICULTURE AND NATURAL RESOURCES, COLLEGE OF

Bachelor of Landscape Architecture

Joanne Elizabeth Carey-Vert
*Michael Maurice Carmichael
Suzy Cho
Spencer John Derrick
Jonathan Eng
Kelsey Ann Farrish
Michael Anthony Kostreski
Andrew John Moore
Anne-Marie C. Needham
Robert Kwao Nketia Jr.
Eric Raybon
Courtney Elizabeth Shea
Shawn Raymond Smyth

Bachelor's degree candidates who have qualified for scholarship honors upon graduation are designated by appropriate symbols adjacent to their names within the alphabetical listing of colleges or schools.

To be eligible for consideration for such honors, a candidate must meet the following general criteria: (1) have completed at least two years of work at the University of Maryland (60 semester hours, 30 of which were earned at the College Park campus) and (2) have a scholastic average of a "B" (grade point average of 3.0) or higher in the University of Maryland work prior to the last semester of registration before the awarding of a degree.

Degree candidates who have met these criteria are shown in the listings as qualifying, upon graduation, for the designators summa cum laude (if they ranked in the top 2 percent of the candidates in their respective colleges or schools), magna cum laude (if in the next 3 percent), or cum laude (if in the next 5 percent) based on the grade point averages of students in the preceding three graduating classes of their degree-granting unit.

Other Citation Programs

The university provides a variety of enriched living and learning opportunities through the CIVICUS and College Park Scholars programs. Designed to cultivate intellectual excellence, each offers students opportunities to realize their full potential. Transcripts are marked with an academic citation credits earned in a specific focus area supplemental to the major course of study.

CIVICUS

CIVICUS, an academic citation program within the College of Behavioral and Social Sciences, is centered around citizenship, leadership and community building in a diverse society, scholarship and community service learning. Graduates are wearing a silver medallion on a blue ribbon.

Notation Programs

Many of the university's exceptional programs, including certain living and learning communities, allow students who successfully complete them to receive a transcript notation. Beyond credit requirements, these courses of study include participation in rich, real-world experiences.

BEYOND THE CLASSROOM

Beyond the Classroom, based in the Office of Undergraduate Studies, equips students with leadership skills to contribute to civic engagement and social change in a global context.

QUEST

Quality Enhancement Systems and Teams (QUEST), is a selective, multidisciplinary engineering, technology and management program. QUEST students participate in coursework and co-curricular learning activities that focus on quality management, process improvement and system design. Associates are wearing a gold medallion on a purple ribbon.

Jay Garvey

Special Recognition

SENIOR MARSHALS

The Senior Marshal Program began in 1991 as an opportunity to acknowledge outstanding seniors at their commencement. The students selected to be marshals were nominated by faculty, administration and staff for their outstanding accomplishments and contributions to the University of Maryland. We are proud to recognize these truly remarkable students.
